Education

D.Y Patil College of Engineering, Akurdi, Pune, India

2021 – 2025

Computer Engineering - CGPA: 9.3

Experience

Accelya Solutions India Ltd. | *Engineer-I Quality Assurance*

July 2025 – Present

- Designed and maintained **CI/CD pipelines in Jenkins**, automating build and tests
- Built **automation frameworks in Groovy** integrated into Jenkins pipelines, reducing manual intervention in regression cycles.
- Raised **JDBR coverage from 70% to 95%** through systematic test automation, reducing post-release defects
- Performed **API testing and validation** using Postman/SoapUI, ensuring service reliability across microservices

Training & Internship

Worldline Global Services | *Software Engineering Apprentice*

Nov 2024 – May 2025

- Completed 3-level technical training** in software development and engineering best practices, including OOP, web development (**HTML, CSS, JavaScript**), database operations (**MongoDB, SQL**), version control (**Git/GitHub**), CI/CD pipelines (**GitLab, Jenkins**), and API testing (**Postman**).
- Gained hands-on exposure to security principles (**OWASP**), code quality tools (**SonarQube**), and development of **RESTful APIs & Microservices**.

Projects

Goa Yacht Booking Platform | goaboat.com

Full-stack booking management system for a live yacht charter business in Goa

- Designed and deployed a **multi-role** platform (admin, backdesk, onsite) using **React, Node.js, Express, MongoDB** — hosted on **Hostinger VPS** with **cPanel** frontend and automated **CI/CD via GitHub**.
- Built 11+ **RESTful API** modules (bookings, yachts, slots, transactions, notifications) with **Zod validation** and a centralized **global error handler**.
- Implemented real-time **Socket.io** notifications with **JWT**-authenticated connections and **role-based authentication**.
- Integrated **Nodemailer** email alerts, **Cloudinary** image uploads, and **cron jobs** for automated slot cleanup
- Generated client-side PDF boarding passes and receipts using React-PDF for a seamless booking experience

Irepairwala | ireparewala.com

Designed and Deployed Website for Irepairwala. Delhi-based Mobile Repair, Accessories, and iPhone Service Provider

- Optimized website performance** by **30%**, achieving faster load time.
- Implemented a custom **chatbot**, increasing user engagement and lead generation.
- Enhanced mobile responsiveness and user experience, deployed on **Hostinger**.

Skills

Languages: Java, JavaScript, SQL, C++

Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, Socket.io, JWT, Zod

Databases: MongoDB, MySQL

DevOps & CI/CD: Jenkins, Docker, GitHub Actions, GitLab CI, Git

Cloud & Tools: Cloudinary, Hostinger VPS, cPanel, GoDaddy, Postman, SoapUI, JIRA

Coursework: OOP, OS, DSA, DBMS

Achievements

- Solved **600+** DSA problems on [LeetCode](https://leetcode.com) enhancing problem-solving skills.
- Smart India Hackathon** - College level Winner.
